

■ Socratic AI — Milestone 1 Investor Package

■ Trang 1 — Cover + Twitter Pitch

Socratic AI

From asking AI → to thinking with AI

■ Twitter Pitch

“Most people use AI to get answers.”

“We help them think.”

>

“Socratic AI guides users with questions, not answers—so they understand problems deeply and solve them 10x better.”

■ Trang 2 — Market Analysis

■ Target User

- Knowledge workers (dev, PM, student, founder)
- Overloaded với thông tin AI
- Đã dùng ChatGPT nhưng chưa “think better”

■ Pain

- Nhận nhiều câu trả lời nhưng không hiểu sâu
- Không biết đặt câu hỏi đúng
- Không có framework để suy nghĩ

■ Insight

““Users don’t need more answers—they need better thinking.””

■ Market

- GenAI users toàn cầu (ChatGPT, Claude users)
- Entry: niche communities (AI, startup, dev)

■ Trang 3 — Solution (PRD Summary)

■ Core Idea

AI không tr■ l■i → AI h■i ng■■c

■ Core Features

1. Socratic Questioning Engine
2. Use-case Templates
3. Adaptive Depth Mode
4. Insight Summary
5. (Future) Memory

■ Value Proposition

- Clear thinking
- Better decisions
- Faster problem solving

■ Trang 4 — Product Flow

■ Socratic Loop

1. User hỏi vấn đề
2. AI hỏi ngược
3. User trả lời
4. AI đào sâu
5. → Insight

■ Aha Moment

User nhận ra:

““Tôi hiểu vấn đề rồi hèn ch sau 1 session””

■ Trang 5 — Differentiation

■ ChatGPT

- Answer machine

■ Socratic AI

- Thinking partner

■ Moat

- Questioning framework
- Prompt system
- User thinking data (future)

■ Trang 6 — Financial Model (Simplified)

■ Revenue Model

- Freemium
- Paid: \$5–10/month

■ Assumptions

- 1,000 MAU (early)
- 5% conversion → 50 paid users
- ARPU: \$7

→ MRR $\approx$ \$350

■ CAC (early)

- Organic (0–\$2/user)

■ Payback

- < 1 tháng (early stage)

■ Trang 7 — Unit Economics

■ LTV

- ~\$50–100 (■■c tính)

■ Retention Target

- W1: 30%
- Monthly: 20%+

■■ LTV / CAC

- > 10x (early organic phase)

■ Trang 8 — Roadmap + OKRs

■ Roadmap

NOW

- User không biết bắt đầu
- Không thấy value ngay
- Backend overload nhưng không hiểu

NEXT

- Không duy trì flow suy nghĩ
- AI chưa context-aware
- Không thấy progress

LATER

- Chưa trở thành thinking partner
- Chưa có metric “thinking quality”

■ OKR (Q1)

Objective

Help users experience their first “aha moment” with Socratic AI

KR1

40% user hoàn thành 1 Socratic session

KR2

1,000 MAU + 5% paid

KR3

30% W1 retention + NPS $\geq$ 40

■ Trang 9 — Dependency + Critical Path

■ Dependencies

1. LLM API
→ fallback multi-provider
2. User acquisition
→ build viral loop + landing
3. UX adoption
→ guided mode + optional answers

■ Critical Path

1 → 2 → 4 → 6 → 7

(Define loop → onboarding → UI → launch → feedback)

■ Closing

"We are not building a better chatbot."
"We are building a better way to think."
